

TORO[®]

Count on it.

VISTA[®] SERIES

PASSENGER VEHICLES

VISTA[®] MADE TO MOVE.

MADE TO MOVE.

Toro's dedication to innovation is the foundation of more than three decades of proven success and reliability in work utility vehicles. The addition of the Vista line of people-mover vehicles continues that legacy. Choose from models that include Toro's proprietary HyperCell® lithium-ion battery or EFI petrol-engine-powered options in 4, 6 and 8-passenger configurations. All backed by Toro's dedicated network of global distributors that set the standard for service.

4-passenger

6-passenger

8-passenger

DELIVERING EXCELLENCE IN OPERATIONS.

Vista elevates your organisation by saving travel time for guests and enhancing efficiency for employees. Designed from the ground up specifically for all-day, dependable and comfortable transport, Vista can support any event or job, whether you're escorting VIPs, assisting guests or moving key volunteers and supplies.

RESORT RUNNER

Enhance your guests' experience with seamless travel from hotel to tee box to spa oasis. Vista was created for the reliable ease of use and comfortable transit of passengers as a central part of your organisation's operations plan.

CAMPUS CONNECTOR

Travel to all corners of your university with ease and efficiency. Vista is an ideal solution for any campus job, including campus tours, student-athletic shuttling, campus safety and facility fleet needs. Designed from the start to carry a wide range of passengers inherent in any higher learning facility.

MUNICIPAL MOVER

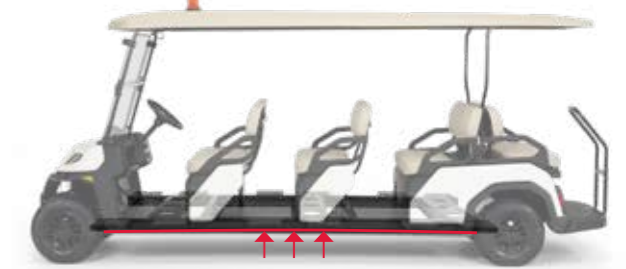

Whether you are hosting special events like a conference or music festival, or using it daily to navigate narrow paths in a widely dispersed park system, Vista sets the stage for success. Spacious seating, cargo-enabled fold-down rear seats, adjustable suspension and a smooth ride make Vista a valuable community asset.

BUILT TO LAST.

Vista is designed to transport guests or passengers safely and in style for a diverse range of facilities, including resorts, campuses, event spaces, athletic facilities and more.

HEAVY-DUTY RIGID FRAME

Vista's frame design stems from decades of success with Workman® utility vehicles. Designed and duration-tested to stand up to the maximum anticipated weight for each vehicle configuration, Vista ensures a secure, comfortable ride.

MAINTENANCE CONVENIENCE

Easily view speed, battery level (lithium-ion models), maintenance messaging and other key information on the LCD screen located on the dashboard.

BRAKING CONVENIENCE

The parking brake activates and deactivates automatically on lithium models, which means less brake adjustments and maintenance. Hydraulic disc brakes allow for smooth, consistent stopping power with both lithium-ion and petrol models.

COMFORT

Generous legroom and ergonomically designed seating throughout allow passengers to relax and enjoy the ride.

CUSTOMISABLE OPTIONS

Make it yours: the sleek design and polar white body can easily be branded with decals, wraps or paint.

SMOOTH RIDE

The independent suspension plus the adjustable coil-over shocks provide the smoothest ride for all passengers, over some of the more bumpy terrain or on longer trips.

STORAGE

The rear seating section easily folds down for cargo transport.

POWER

Choose a lithium-ion battery or an EFI petrol engine to efficiently power your 4, 6 or 8-passenger shuttle. Need more run-time? Add an additional battery on lithium models to extend service time.

POWERFUL OPTIONS.

The Toro Company is committed to providing versatility across its vehicle line-up. Customers can choose between Toro's patented HyperCell® lithium-ion battery or dependable pe-powered option for their Vista units. The battery-powered models come equipped with an on-board 900 W smart charger. This convenient charging solution gives Vista the capability to plug into any standard electrical socket, eliminating the need for special charging stations.

TORO HYPERCELL LITHIUM-ION POWER

Toro's proprietary HyperCell battery technology optimises Vista's performance and run-time, providing maintenance-free, all-day dependability. Backed by Toro's global service network, Vista comes standard with two HyperCell batteries.

Add an optional third battery for even more run-time.

EFI PETROL POWER

The single-cylinder Briggs & Stratton® EFI (Electronic Fuel Injection) engine provides familiarity and power. When compared to earlier carburettor engines, the EFI technology helps to reduce noise emissions.

VISTA® ACCESSORIES

Vista has several accessories available to enhance its use and function, including an optional canopy for weather protection, and a folding windscreen to help block wind and debris. These and other attachments contribute to a safe and enjoyable experience.

Canopy – 4, 6 and 8-seat
(required on 4-seat models)

Folding windscreen

Indicator kit

Beacon kit

Cargo bed (light duty)

Wink mirror

Mirror options:

- Rear-view mirror kit — 6 and 8-seat
(4-seat included with canopy)
- Wide-angle mirror kit
- Wink mirror kit
- Side mirror kit

TORO® WORKMAN® UTILITY VEHICLES

Sometimes a job requires more grit than grace. From hauling heavy loads to transporting vital work crews, Toro is proud to provide a full line of vehicles to meet any need. For more rugged tasks, there is no better option than Toro's Workman utility vehicles. A top choice for grounds professionals, Workman utility vehicles offer exceptional reliability, power and high payloads.

Workman UTX diesel or petrol

Workman MDX lithium-ion or petrol

Workman HDX diesel or petrol

Workman GTX lithium-ion, lead acid or petrol

VISTA®

SPECIFICATIONS*

	VISTA LITHIUM-ION	VISTA EFI PETROL
POWER SOURCE	Two HyperCell® lithium-ion batteries standard, option to add an additional battery	408 cc, air-cooled, single-cylinder Briggs & Stratton® EFI petrol engine
CHARGER	On-board, high-efficiency 900 W smart charger AC input voltage 100–240 VAC AC input frequency 50/60 Hz Max input current 13.4 A	N/A
VALVE TRAIN	N/A	Single-cylinder overhead valve
ELECTRIC MOTOR	Brushless high-torque AC induction motor with 5.0 kW (6.7 hp) continuous power	N/A
FUEL SYSTEM	N/A	Electronic fuel injection
HORSEPOWER (KW)	5 kW (6.7 hp continuous)	10 kW (14.0 hp)
KEY OR PEDAL START	Pedal start standard	Key and pedal standard
AIR CLEANER	N/A	HD air filter
LUBRICATION	N/A	Splash lube
COOLING SYSTEM	N/A	Air-cooled
FUEL CAPACITY	N/A	18.9 l
OVERALL LENGTH	4-passenger: 277 cm (109") 6-passenger: 357 cm (140.5") 8-passenger: 437 cm (172")
