

**Compact, easy to use  
Drum Aerator**

**Ideal for  
rental  
companies**

Model shown:  
AE401H

### **AE401 Drum Series**

AE401H, AE403V

This mechanical 48 cm / 19" wide aerator eliminates cumbersome filling of a conventional centre drum found on other units on the market, which are prone to wear, vibration and damage.

Billy Goat's outboard drive wheels also eliminate centre wheel slip and abuse from ramp loading with the tines engaged. Instead of bulky steel weights, water weight is positioned directly over the tines for better aeration depth.

Operators love the softest drive and tine engagement and the exclusive Lift N Lock™ feature allows the tines to be raised by simply lifting up on the handle.

The Fold-n-Go™ handles and the tilt up serviceability make service and transport convenient and simple.

## The Benefits of Aeration

The purpose of aeration is to improve the exchange of air and the penetration of water and fertilisers in the soil.

If turf is trampled and walked over continuously, the lawn develops a compact surface that leads to degradation of the lawn surface.

## Features

### Outboard Drive Wheels

Eliminate both centre wheel slip and abuse from ramp loading with the tines engaged.

### Single Bolt Tine Fastener

Rock solid and easy to service.

### Tine Engagement and Lift N Lock™ Disengagement

For best in class comfort and productivity.

### Water Tank

Proprietary water tank eliminates bulky side weights. 23 litre capacity.

### Easy to Store and Transport

Fold-n-Go™ handles are excellent for transport and storage and fold without tools.

## Accessories

### Solid Steel Tines

Excellent for improving drainage or for other no-plug applications. Sold as a set. (360394-S)
