

# THE SMART WAY TO HEALTHY TURF

Maxi-Brush is a triple section 5.4m wide brush which can fold down to 1.8m via optional hydraulic folding, offering great versatility for maintaining natural and synthetic turf.

Use the Maxi-Brush to brush off dew before you mow to leave an evenly dispersed cut

without wet clippings. This method helps prevent fungal diseases such as fusarium.

You'll find Maxi-Brush ideal for striping pitches, grooming before mowing, dispersing worm casts and brushing in topdressing.
